### THRILLING TALES OF AMERICA'S MOST PICTURLSQUE FIGURES START THIS WEEL

In another column of today's Enterprise will be found the story of Davy Crockett, "Hero of the Alamo." This is the first of a series of forty-eight tales of great American scouts that will appear in this paper. This is, for many reasons, one of the best series that has ever appeared in print. Clip these stories as they appear and paste them in your scrapbook, and when the series is finished you will have a book of short classics concerning the most picturesque characters that this country has produced. More than that, they were the bravest, shrewdest, most resourceful men that have ever lived. These men were called upon day after day to pit their wits and hunting craft against a savage foe whose cunning and cruelty became famous the world over.

These men by sheer hardihood paved the way for civilization. Their's the lot to lay the foundation upon which the great nation of the United States was founded. With the opening and settlement of the West their occupation was gone, and one by one they passed away. Some of them died peacefully in the prime of life. Others died with their boots on and fighting as they, themselves, would have chosen to die. Some half dozen or so have been immortalized in story and song, but there are many more, just as great, whose part in the winning of the wilderness was no less important, that have been missed by historians. This is the first effort made that does justice to all whose stories could be secured.

You have read time and again about Daniel Boone, Buffalo Bill, Davy Crockett, Kit Carson and others, but what of Jim Beckworth, Belzy Dodd, Jim Bridger, Uncle Dick Wooton, Rocky Mountain Tom, Jedediah Strong Smith, Old Jim Baker, Frank North, Forsyth's Scouts, Ned Buntline, Bat Masterson, Tam-e-yukh-tah, Jack Stillwell, Old Man Richards, Billy Dixon, Frederick William Schmalse, and Doctor Carver? The stories of all these will be found in this series.

Don't miss any of them. Every story is short, touching upon the greatest achievements of each man. They cover the story of the nation from the days of the French and Indian war down to the last Indian uprising, and in their entirety constitute a condensed history \* proved. of this country that is unique. Save them. They are intensely interesting reading, tales that cast into the shade the most remarkable creations of fiction.

The exclusive publication of the series in this territory has been secured by The Enterprise at considerable cost, and is again proof that & luncheon today (Friday) Miss Anna & the grammar school will be fully the obtaining of the best for its readers is the first consideration of this newspaper, regardless of the expense involved.

Will Be Settled Next Meeting.

Bids for the paving of the alleys in blocks 95, 102, 117, 119, and 99 were or persons responsible for the death council last Monday night. HOUSEKEEPER OF DEAD PRIEST SAYS HE IS MAN WHO LURED FATHER HESLIN TO HIS DEATH; CORONER'S INQUEST HELD.

At the county jail Tuesday Miss Marie Wendel, former housekeeper for Father Heslin and Mrs. Irene Bianchi, who lives across the street from the parish house at Colma, where confronted with Hightower and identified him as the man who called at the priest's house the night of August 2d and lured him away by telling him he wished him to administer the last sacrament to a dying man. When taken into the women's presence, Hightower was dressed in an overcoat with the collar turned up, a cap was placed on his head and goggles on his eyes, the manner in which the visitor at the parish house had been garbed. On hearing his voice, Miss Wendel was positive in her identification. Mrs. Bianchi was less positive. The visitor on the fatal night was

Doris Shirley, who was married last Saturday at Redwood City to Lee V. Putnam of San Francisco, has given testimony that, it is believed, establishes her identity beyond doubt with that of the Dolly Mason who Hightower stated, had accompanied him to San Francisco from Salt Lake City. Mrs. Putnam testified that she did not, as Hightower stated, tell him of a drunken man who declared to her he had committed murder. If this is true, it explodes the accused man's story of how he learned the location BIDS FOR PAVING of the murdered priest's grave.

Officers at the jail at Redwood City weakening and a confession may be secured from him at any moment.

No formal charge as to the person priest, was made at the coroner's insession, while District Attorney Franklin Swart examined the wit-Hugh Crummey-Grading, \$1.40 per nesses. Only two witnesses were performed an autopsy on Father Heslin's body. The verdict of the jury Charles A. Lindgren-Grading, \$1.75 was that the dead priest died "by viocause death, or of gunshot wounds that were sufficient to cause death, or wounds."

Constable Landini's testimony tended to establish Hightower's guilt. In the absence of City Clerk Daniel Telling of the exhuming of the body, Landini stated:

"Hightower was digging, and so was I. He was wielding his shovel with feverish rapidity, and I warned An application for a soft drink him that, if a body really was buried with the shovel and render it unrecognizable. Whereupon Hightower

"'I'm not digging at the head. am digging at the feet.'

"And this," declared Landini, "was

### PART-TIME SCHOOLING IN SO. SAN FRANCISCO

With the opening of the regular public schools in South San Francisco next Monday the part-time school also begins its work for this year. This will be the second year that the California part-time education act is in force. Last year about forty were enrolled in the part-time school in South San Francisco. This year there betts. will be between fifty and sixty. Those enrolled last year must attend again this year, as the law requires all under 18 to attend.

Who must attend the part-time school? All boys and girls, whether employed or not, between 16 and 18 years of age who are not in attendance upon a public or private day school or who have not graduated from high school. All boys and girls under 16 years of age who are at work under a permit must also attend these

The law provides that all classes must be held between the hours of 8 a. m. and 5 p. m., and each permit worker is required to attend not less than four hours a week during the school year. All boys and girls under 18 years of age who are employed must have new work permits next week, as the vacation permits now in force expire next Monday. Failure to attend to this may cause the loss of

The part-time education act holds parents as well as employers responsible for the attendance of permit workers upon the part-time classes. In violation of the act, parents as well as employers are subject to fine or imprisonment or both. It is the desire of the school to make this work as valuable as possible to the boys and girls who attend, and therefore the closest co-operation of employer, parents and school is necessary. The school authorities desire to co-operate with all employers of permit workers, in order to get the most satisfactory results and to make it as convenient as possible to employers when selecting a time for permit workers to attend the part-time classes.

Next Monday is registration day, and all boys and girls coming under the law are requested to come to the high school at 4:15 p. m. to register and fill out certificates of application for work permits.

BOOSTER BALL TO BE BIG SOCIAL EVENT

What promises to be the tiggest social affair given on the peninsula in recent years will take place Saturday evening, September 3d, when the Native Sons and Native Daughters of San Mateo county hold their booster ball in the high school gymnasium, San Mateo. Committees have been appointed by all the parlors to assist in the arrangements for the big event, with Harold Hexner of Redwood City as general chairman. The proceeds of the dance will go toward the fund that is being raised by the Native Sons and Native Daughters for the Admission Day celebration in Halfmoon Bay this year. Fred Lamb's six-piece orchestra has been engaged to play for the dance, which will start at 8:30

### FATHER OF MRS. HYNDING AND GEORGE ROLL DIES SATURDAY

George Roll of Santa Clara, father of George Roll Jr. of this city and of Mrs. Andrew Hynding, died at his home Saturday after an illness of several months. The funeral took place Monday, the services being private. The body was cremated at Cypress Lawn Cemetery. Besides his son and daughter in this city, the deceased leaves a widow, Mrs. Lavina Roll, and two brothers, all of Santa

On Sunday Mr. and Mrs. H. Nessier tendered their little daughter, Elenor. a party in honor of her fourth birthday. The beautiful Nessier home was decorated appropriately for the occasion. Little Elenor was the recipient of many beautiful gifts. There was music and games, and refreshments were served. Those who participated in the day's enjoyment were: Mr. and Mrs. H. Nessier, Mr. and Mrs. Sassman, Mrs. H. Werle, Mrs. E. Thiel, Mrs. M. Monize, Mrs. M. Friedman, Elenor and Walter Nessier, Ernest, Harold and Adeline Monize, and Ralph, Charles and Louise Sassman.

W. R. EMERICK AWARDED DAMAGES FOR AUTO COLLISION

Judge George H. Buck rendered a decision Monday in favor of the plaintiff in the case of W. R. Emerick of South San Francisco vs. O. L. Johnson. The suit was the result of a collision between the automobiles of the two parties on February 7, 1921, at the corner of Miller and Linden avenues at South San Francisco. Emerick sued for \$462.25 damages through Attorney J. J. Bullock. The defendant filed a cross-complaint, asking for \$73.25, through Attorneys Barry J. Golding and Theodore Hale of San Francisco.

Judge Buck's opinion states that the time for the count. defendant was clearly violating the law at the time of the collision.

STEEL MILL STARTS WORK ON THREE MILLS FOR SHORT BUN

The steel mill in this city worked a part crew this week on three of its rolling mills. The 9, 10 and 22-inch mills were the ones which were used. The superintendent's office informed The Enterprise Wednesday that it would be for a short run only.

COLMA MAN ASK SDAMAGES FROM AUTOMOBILE DRIVER

Rudolph Mitchel, owner and driver of a team of horses struck by an automobile near Daly City on July 8th, has filed suit through his attorney, Franklin P. Bull, against Victor Vesini of South San Francisco, A. Carso, et al., owners of the automobile, for \$1773.50.

Mitchel alleges that he was driving his team on the right-hand side in a southerly direction when the defendants, driving at a speed of forty miles an hour, crashed into his wagon, throwing him out and fracturing one of his ribs, and breaking the leg of one of his horses, necessitating the horse being shot. He sums up his damage as follows: Medicine, \$8.50; hospital expense, \$12; ambulance, \$20; personal injuries, \$1000; horse, \$250; wagon, \$250; harness, \$35; hire of man and horse, \$198; total, \$1773.50.

### GOING ON A VACATION?

We suggest that if you are going on a vacation or are going to be away from home for any reason whatsoever that it is far safer—and of course many times cheaper in the end-to rent a Safe Deposit Box in which to store your bonds, stock certificates, mortgages, insuance policies and other valuable papers together with your silver and jewelry.

During your absence, should fire attack your home -and an insurance policy does not provide against loss by fire of any of the above—or should your home receive an unwelcome visitor in the person of a burglar, it will be a relief to come home and know that your valuables are safe in the vaults of this bank.

A Safe Deposit Box will provide protection not only during vacation times but through all the year as well. You can rent one for a year for LESS THAN A CENT A DAY.

### RESPONSIBILITY OF THE PARENT

Many parents lose sight of the fact that the vacation period is one of grave danger to the growing child.

The boy or girl just out of school feels like the caged bird that is suddenly released from its captivity. It glories in its freedom to the exclusion of all else.

Many of the lessons in deportment that have been learned in the classroom are gradually forgotten as the child finds its way to the street. There is no room in its heart for anything but the glories of the present, unless the parental hand is ever guiding its steps. The future is a sealed book which will be opened only too soon for its purpose.

Herein the function of the parent becomes of double importance to the future life of the child, for the careful work and training of the teacher must be carried on through the days and weeks of the vacation period, not to the extent of hampering the child in its rest and recuperation from classroom confinement, or depriving it of the innocent pleasures of life, but rather the daily impressing upon its young mind the necessity for continuing the rules of conduct learned in its hours of study.

Children are quick to learn and equally quick to forget. An impression may sink deep today and be forgotten by tomorrow, but if it is repeatedly brought to the attention of the juvenile brain it will eventually take deep root

The teacher is responsible to the parent for the proper instruction of the child during its hours of study, but the parent has a double responsibilityto both the teacher and the child—the responsibility of safeguarding the work of both.

### **VERY MUCH AWAKE**

There may have been a time when the residents of a small country town or a farming district took little or no interest in affairs outside of their own local community, other than to vote their straight party tickets at election

But that time is not now. It has not been for many years.

The man behind the counter or the plow is just as vitally interested in state and national affairs as is his cousin in the great city.

The foreign news is just as carefully scanned from day to day, and the field of research and invention is religiously scrutinized.

There is little that transpires in the world of affairs that is not known and understood by the man in his rural home, for it is through his constant search for advanced knowledge of a practical nature that he is enabled to keep pace with the swiftly moving tides of life.

If a just comparison could be made, it is probable that, man for man, the person in the country town or on the farm would be found to be better posted on the affairs of the world in general than the average dweller of any of the great cities.

### WITH MAN'S APPROVAL

All honor to the mayor of Boston, the birthplace of culture and the home

His honor has approved the wearing of knickerbockers in daily life by

the women of his city, and there is not a gasp. He sees in this innovation greater freedom of movement, increased health, and a degree of feminine modesty superior to that of the present mode of dress,

And possibly he is right.

Women are always hampered in their movements by trailing or clinging skirts, and especially is this so by those who earn their daily bread. Skirts are hot in summer and unsanitary at all times. They are a nuisance and an ever-increasing source of expense. There is no reason why they should not be sidetracked in favor of garments that are more sane, sensible, and economical in every way.

When knickerbockers make their appearance they will be criticised, but if the throwing of stones is restricted to those who are themselves without fault there will be but few of them thrown.

A New York physician says that the prevalence of divorce in proportion to the growing wealth of the country is due to a change in function of the pituitary body. Now we know all about it.

The British government owes the government of the United States some billions of dollars of money borrowed from us during the war. None of the principal has ever been paid, and only a small pittance of the interest due has been collected. The United States owed England \$35,000,000 for transporting American soldiers to France in British ships. The British presented their biii the other day and the government at Washington promptly paid it. In the meantime thousands of our disabled soldiers are neglected and in want. Can you beat it?

Now that the grafters have been kicked out, it is reported that the public is beginning to lose interest in baseball.

Women are quick to claim their newly made prerogatives in all things except the payment of the family bills.

Senator Spencer of Missouri is quite justified in owning and operating a Lizzie. It gets his name in the funny columns.

Some people are so busy telling others what to do they have no time left

in which to do those things themselves.

We note, however, that there has been no reduction in the price of postage stamps and marriage licenses.

If you and a few others were removed from this world how many really

good husbands would there be left?

Men and women are now considered equal, except wherein it interferes

It would be inconsistent to accuse a married woman of having her price.

She gave herself away.

Women look into the mirror in order to see themselves as they want Possessing a will to do is the best assurance that it will be done.

People who play with fire often get cold feet.

and a lot more than we possess.

with the prejudices of the man.

### Stories of Great Scouts Watson

By Elmo

©. Western Newspaper Union. DAVY CROCKETT, THE HERO OF THE ALAMO

"Be sure you're right, then go ahead," was Davy Crockett's motto. NOTICE OF SALE OF REAL PROP. He fought for the right, then went ahead to a glorious death in the Alamo. Crockett was born in Tennessee in 1786. He came of fighting stock

returned to Tennessee and entered politics. From magistrate he rose to state legislator and next the renowned bear hunter and scout we's sent to congress where he served wo terms. In February, 1836, Davy with 12 of his Tennessee friends arrived at the Mission del Alamo where Col. William Travis with a little army of less than 200 men was defying the Mexican dictator, Santa Anna.

Santa Anna had a force of 5,000 men, and although the Texans had a chance to escape before this overwhelming army cut off their retreat, they refused to do so. The Mexican general surrounded the rude little adobe fort. His demand for its surrender was met with scorn. Then he raised the red flag which meant, "No quarter," and attacked.

Lot numbered Seventy-seven (77) in Block numbered Ninety-seven (97), as shown upon that certain map entitled "Martin's Subdivision of Block 97 South San Francisco, Cal.", which map was filed in the office of the County of San Mateo, California, in Book "E" of Maps at page 70, on the 17th day of March, 1904.

Terms and conditions of sale: Cash in Gold Coin of the United States, Ten (10) per cent of the purchase money to be paid at the time of sale; balance on confirmation of sale. Deed and abstract at the expense of the purchaser. All bids or offers must be in writing, and may be left at the law office of J. W. Coleberd, attorney for said administratrix personally at No. 387 Eddy Street in the City and County of San Francisco, State of California, or may be filed in the office of the Clerk of the above entitled court, at any time after the first publication of this notice and before the making of the sale.

Dated August 1, 1921.

quarter," and attacked.

The long rifles of the Texans mowed down the Mexican soldiers driven to the attack. On March 6 Santa Anna prepared for a grand assault. Twentyfive hundred picked men were detailed to be hurled against the fort. The first assault was beaten back with heavy loss. A second failed, but in the third desperate attempt the Mexicans broke into the fort.

After that the fighting was hand to hand. Travis went down and Crockett took command. Outnumbered a hundred to one, Crockett with a few comrades stood with their backs to the wall of the church. One by one his men went down. At last only Davy was left. "Old Betsy" fired her last shot. Then Crockett seized her by the barrel and swung her about his head. There was a short struggle. "Old

Betsy" was knocked from his hand. Bayonet thrust and sword cut were rained upon him. A mass of Mexicans struck him. He went down fighting to the last. The Alamo was history.

Exterior Walls.

Section 3. The exterior walls and party walls of the buildings hereafter erected within the fire limits described in Sections 1 and 2 of this ordinance shall be made of reinforced concrete or brick, or natural or artificial stone, other than concrete block, or a combination of any or all of the above mentioned materials and of thickness sufficient to support the load to be carried; provided that galvanized iron or tin cornices on skeleton wood frames may be used for exterior decorations. All outer walls shall extend at least two

feet above the roof of such buildings.

Interior Walls. Section 4. All buildings hereafter erected within the fire limits described in Sections 1 and 2 of this ordinance shall have their interior walls, partitions and ceilings plastered with one or more coats of plaster at least Five-eighths (5%) of an inch thick and extending down to the floor, except mills, warehouses, stables, laundries, factories and outbuildings where the exterior walls are not ceiled on the inside and partitions are boarded on one side only. only.

Section 5. At each floor level in all buildings hereafter erected within the limits described in Sections 1 and 2 of this ordinance, all stud walls, partitions, furrings and space between joists where they rest on division walls or partitions, shall be fire-stopped with incombustible material in a manner to completely cut off communication by fire through concealed spaces. Such fire-stopping shall extend the full distance of the joists, and at least four inches above each floor level.

Alterations and Renairs

Alterations and Repairs.

Section 6. When the exterior walls of any frame building which has been constructed within the fire limits described in Sections 1 and 2 of this ordinance are altered, changed or damaged to One-fourth (½) of their extent, or when the interior of any building shall be altered to the extent of tearing down more than One-half (½) of the partitions, or when the interior is damaged to One-half (½) of its extent, then the alterations or repairs of said building shall be constructed in the same manner as herein provided for new work. Whenever any frame building is damaged by fire to One-fourth (¼) of its extent, the remaining portion thereof shall be immediately removed by the owner. Whenever additions are made to buildings in the fire limits described in Sections 1 and 2 of this ordinance, such additions must be made to conform to the construction provided for new work. Alterations and Repairs. the construction provided for new work.
o portion of the front wall of any such building and no portion of any wall facing upon any public street, avenue, highway, or alley, shall be repaired or remodeled, except in accordance with the provisions of Section 3 of this ordinance.

Permits for Alteration.

Section 7. No wooden building situated within the fire limits described in Sections 1 and 2 of this ordinance shall be altered, repaired or added to, without permission to do so being first obtained from the Board of Trustees.

Any person desiring to obtain such permission shall file with the City Clerk, addressed to the Board of Trustees, a petition describing fully the building and premises or the alterations, repairs or additions which are desired to be made, also the materials with which it is preposed to make the same. The permit, if issued, shall state fully the alterations, repairs or additions allowed to be made, the materials to be used, and such regulations respecting the same as in the judgment of the Board of Trustees may be necessary, which said permit shall be filed with the City Clerk; provided, however, nothing herein contained shall be construed to require the Board of Trustees to grant such permission; but they shall be sole judges of the necessity and reasonableness of the alterations, repairs or additions, and their decision granting or refusing the permit shall be final and conclusive. Temporary permits shall never be granted under any circumstances.

Moving Buildings.

Moving Buildings. Section 8. No buildings shall be moved to another location within the fire limits described in Sections 1 and 2 of this ordinance more than Ten (10) feet distant from its original location, unless it is constructed in accordance with Section 3 of this ordinance; provided, however, that the Board of Trustees may, by resolution, grant permission to move any building not so constructed to another location within the fire limits described in Sections 1 and 2 of this ordinance on condition that the same may remain within the fire limits 2 of this ordinance on condition that the same may remain within the fire limits for such period of time as said Board may prescribe in the resolution granting such permission, but not exceeding six months from the date of such permission. If any such building is not removed from said fire limits by the expiration of such period of time, said Board of Trustees may cause such building to be removed or torn down at the expense of the owner. No building shall be moved from the outside district within said fire limits unless it is constructed in accordance with the provisions of Section 3 of this ordinance.

Roofs and Skylights.

Boofs and Skylights.

Section 9 (a). The roofs of all buildings included within the said fire limits shall be covered either with tin, slate, tiles, terra cotta, tar and gravel or prepared roofing, except those now otherwise covered; the latter shall be covered with one of said materials whenever the Fire Marshal shall deem them to be in need of repairs.

(b) Skylights shall be of metal frames with wired glass, or metal frames and heavy glass having wire screen of not less than four (4) inches of No. 12 wire and one (1) inch mesh.

(c) No shingle or wooden roof, if damaged to One-fourth (½) of its extent, shall be repaired with other than the kind of roofing provided for in this Section.

Section.

Chimneys.

Section 10. All chimneys and flues hereafter constructed in any part of the City of South San Francisco, except patent chimneys, shall be of brick or stone; their enclosing walls shall be not less than four inches thick, and shall, if less than eight inches thick, be lined on the inside with well burnt clay or terra cotta pipe of not less than one inch thick. Said lining shall start from the bottom of a flue or the throat of a firepplace, be continuous to the top of the flue and shall be built in and bricked around as carried up. Flues where lining is not required by this ordinance shall have the joints struck smooth on the inside. Where such chimney is built in a wooden building and extended into the lower story of such building, then such chimney shall start from the ground and shall be erected on a permanent foundation of its own separate from the building. Such chimneys shall not be increased in size in the upper story and shall extend at least three feet above the roof or as much higher as will be necessary to insure the safety of surrounding buildings. No sills, plates, floor joists, rafters or the headers thereof shall rest in or on said chimney, but there shall be perfect freedom between all frame work and said chimney.

Patent Chimneys.

Section 11. All "natent chimneys"

Patent Chimneys.

Patent Chimneys.

Section 11. All "patent chimneys" shall be built upon the floor on which they are used, and in no case shall a stove pipe enter a patent chimney less than six inches from the bottom of such chimney.

If a patent chimney be erected on the outside of a building it shall rest on a substantial iron bracket, in which case the bracket must be of metal and fastened to the studding with bolts and nuts; screws or lug screws shall not be allowed for this purpose.

When a patent chimney is erected on the inside of a building it shall rest on an iron plate not less than one-fourth inch in thickness, and shall have not less than two courses of brick on top of said iron plate. It shall have a smoke proof opening near the bottom for cleaning it. All patent chimneys shall be braced every four feet of their height. All joints must be cemented, and the bands covering the joints shall be made of the best No. 24 iron and filled with cement to make them smoke and spark proof.

The term "Patent Chimneys" shall be

filled with cement to make them smoke and spark proof.

The term "Patent Chimneys" shall be understood to mean a terra cotta flue at least six inches in diameter, measured on the inside, with walls at least one inch thick. Such flue shall be entirely surrounded with a continuous metal covering and have an air space between the flue and said metal covering of not less than one-half inch.

no timber shall be placed under any fireplace or hearth. Hearths shall be of brick, tile or stone.

Section 13. In the construction of new buildings or additions thereto, or in the construction of partitions to present buildings, in any part of said City, no person shall cover or finish, in whole or in part, the wall or walls, ceiling or ceilings, of any rooms or building, with cloth and paper, or with paper; provided, however, that plastered walls and ceilings may be papered.

Unlawful Structures to Be Ben Section 14. Any structure hereafter erected, not in conformity with this ordinance shall be deemed a nuisance and shall be removed. Rubbish.

Section 15. It shall be unlawful for Section 15. It shall be unlawful for any person, firm or corporation, his, her or their agent, servant, representative or employee to permit paper, rags, waste or combustible rubbish of any character to accumulate in any quantity in any building, yard, alley or other place so as to increase the danger of fire. The accumulation of such rubbish is hereby declared to be a nuisance and it shall be the duty of the Fire Marshal to see that such nuisances are abated immediately after discovery, using summary measures if necessary to effect immediate abatement.

Pire Marshal and His Duties Section 16. The Chief of the Fire Department shall be ex-officio Fire Marshal, and shall also be one of the police officers of the city; he is hereby authorized and empowered:

1. To enforce all ordinances relating to the construction, management and

1. To enforce all ordinances relating to the construction, management and condition of mercantile and other property within the city;

2. To enforce the provisions of this construction with reference to the construction. 2. To enforce the provisions of this ordinance with reference to the construction and repair of buildings and of the construction of additions thereto:

3. To take summary action in carrying out of ordinances pertaining to the removal of rubbish in streets, alleys and yards.

The Fire Marshal shall report to the Board of Trustees monthly regarding the condition of the city as to all matters referring to fire prevention.

Section 17. It shall be unlawful for any person, firm, company or corporation to keep or store or permit the keeping or storing of, within any building or upon any premises, street or place in said city, any gasoline, benzine, naptha, crude petroleum, or products of petroleum or hydro-carbon liquid, which will flash or emit an inflamable vapor at a temperature below one hundred and ten (110) degrees Fahrenheit, in quantities of more than five (5) gallons, without the written permission of the Fire Marshal. No more than five (5) gallons of any of the articles hereinbefore mentioned shall in any case be kept in any one place, except as in this ordinance hereinafter provided, and any quantity in excess of five (5) gallons must be stored outside the walls of any building at a spot designated by the Fire Marshal or the Roard of Trusteen. Gasoline, Etc. building at a spot designated Fire Marshal or the Board of T

### WONDERS OF AMERICA

By T.T.MAXEY

### 6. Western Newspaper Union. UNCLE SAM'S GIANT WIRELESS

GREENBURY POINT, near A Annapolis, Maryland, is located the great, high-power radio station, owned and operated by Uncle Sam.

Built as a war measure, for the insurance of uninterrupted communication with our army in France, in the event that for any reason the cables were put out of commission, as well as to provide added facilities for keeping in touch with and directing the movements of vessels at sea, it has successfully bridged the seas of the world and "made good."

Four gigantic, steel towers 600 feet high, set 850 feet apart and in the form of a square, support the massive web of super-sensitive wires from which outgoing electric waves "hop off' into space and to which the incoming waves from afar are attracted.

The energy by which the station is operated is obtained from a nearby power plant—a suitable operating ness. building, power-transformer house, quarters for the maintaining and operating forces, store house for repair materials and other necessary equipment having been erected at an advantageous and adjacent location.

The far-reaching importance of this miracle-like station which performs the seemingly impossible comes home successfully handles radio traffic direct | dealing. with France, Italy, Germany, Norway, other radio stations in this country and its outlying possessions and all U. S. Navy and all properly-equipped merchant and other vessels, no matter they may be located.

### AUTO MEN HOLD BIG CONVENTION AT TAHOE

Delegates arrived this week for the northern division convention of the California Automobile Trade Association at Lake Tahoe. Several hundred automobile men were on hand when George Haberfelde, president, called the meeting to order Monday.

Automobile men from all over the state were there to hear the report on the condition of the organization by Robert W. Martland, secretarymanager, who has just made an extensive trip looking over automobile conditions and delving into the affairs of the industry.

Los Angeles, San Francisco, Oakland. Sacramento and other organizations sent representatives to Tahoe to discuss means of improving the automotive industry and instilling the necessity for proper business methods.

Matters of vital interest to the automobile men were discussed. It is this interchange of ideas which has made the organization so successful in combating cutthroat repair men and dishonest practices in the busi-

### PRACTICAL RECIPES

USE OF VINEGAR REDUCES VEGETABLE CANNING LOSSES

A little vinegar added to beans. corn, peas, asparagus, or spinach when canned by the water-bath method will add materially to the reduction of loss by spoilage. Moreover, the time of processing these vegetables may be somewhat reduced when a sufficient amount of acid is used, the Home Economics Kitchen of the United States Department of Agriculture reports after two years of experimental work on the subject.

In certain sections of the country in 1919 and 1920 canned sweet corn did not keep well, whether processed continuously or intermittently. In the Home Economics Kitchen quart cans of corn processed for less than six hours continuously spoiled, while others canned at the same time, with the addition of four tablespoons of vinegar to one quart, did not spoil either year, although given only two 2-inch piece stick cinnamon. hours' processing. If only three tablespoons of vinegar are used, process four hours; two or three tablespoons an hour, and add to it the boiling of lemon juice to a quart gave equally water with the salt and the cinnamon. good results when processed three Add the raisins or prunes and boil hours. Corn should always be boiling this mixture for three minutes. Add distinguished brother's invitation to hot when packed into the jar.

addition of two tablespoons of the acid is transparent. Then add the sugar mings are more easily ironed than peaches use two pounds of canned proved equally effective in reducing and the grape juice, and when these spoilage. Vinegar or lemon juice in are thoroughly blended remove from the small amounts used modifies to the fire. Take out the stick of cinsome degree the natural flavor of the namon and the lemon, and chill the vegetable, but the acid taste is not soup before serving. objectionable to most persons. Moreover, much of the acid taste can be be about like that of a cream soup. washed off before the vegetables are The quantity of lemon may vary, of served. Experiments with vinegar

and other acids in canning vegetables MAY VISIT WHITE HOUSE will be continued in the kitchen next

### AN APPETIZING SUMMER SOUP MADE FROM FRUIT AND SAGO

Warm soup on a hot summer day is to many persons not half so good an appetizer as something cold. Chilled consomme and jellied bouillons of various kinds are often served, but the fruity flavor of the soup here described may appeal to those who do not like the taste of meat soup when

This soup is based on the "sod suppe," which is extensively used in Scandinavian countries, where it is served either hot or cold. It has been tested in the experimental kitchen of the United States Department of Agriculture.

- 1-3 cup sago.
- 1 cup cold water. 2 cups boiling water.
- 1 teaspoon salt. ½ cup raisins or prunes.
- 1½ cups grape juice.
- 1/2 cup sugar.

1/2 lemon, sliced.

Soak the sago in the cold water for the sliced lemon and cook the mix- pay a visit to the White House. With spinach and string beans the ture in a double boiler until the sago

The consistency of this dish should course, with individual taste, and according to the other foods served at the meal.

Other fruits besides those mentioned may be used, and many pleasing combinations may be easily worked out. Left overs of canned fruits may often be used, and since they are already cooked should not be added to the mixture until after the sago is thoroughly cooked. Cherries and peaches combine well with the grape juice, and plums, too, are very satisfactory.

Tapioca may be substituted for the sago, but it does not give quite the same consistency.

### REDUCE AMOUNT OF IRONING DURING THE HOT WEATHER

The ironing done in hot weather may be very much lessened in several ways, suggest specialists in the United States Department of Agriculture. Clothing and household linens should be chosen with a view of avoiding ironing whenever possible. Many of the flat pieces need not be ironed at all, and others may be mangled. Knitted underwear and garments made of crepe, seersucker, and thin muslin may often be carefully pulled into shape instead of ironed. Shirts with plain bosoms and soft cuffs are easiest to iron. On underwear, blouses, and dresses simple flat trim-

often as satisfactory as if ironed, and ly, stirring often, for two hours, or small turkish towels do not need iron- until of the right thickness. Pack ing at all. If sheets, pillowcases, and while hot and sterilize like peach towels are hung on the line carefully butter.

they will dry smooth, and when taken down need only to be neatly folded. Many persons enjoy the fresh fragrance of the undried linen.

Where there are many flat pieces, a mangle either heated or cold will be found a help in making the summer laundry work easier. The damp clothes are folded and pressed between rollers, and the mangle may be hand driven or operated by motor.

For those things that can not be ironed with the mangle, there are many kinds of self-heated irons on the market which do away with heating up the kitchen range. The most commonly used and most satisfactory is the electric iron. The gas iron also has been found to work well, as well as those using denatured alcohol and

### DRIED AND CANNED PEACHES MAKE FINE FRUIT BUTTER

Springtime often finds the housekeeper's supply of jelly and jams in a depleted condition. When this is the case, peach butter made from canned and dried peaches may well come to

The following recipe recommended by the United States Department of Agriculture food specialists is de-

To each four pounds of dried peaches. Soak the dried peaches in Small plate doilies are easier to water several hours and cook until launder than large tablecloths, and tender. Add the canned peaches and many people like the stenciled oil- rub the pulp through a colander or cloth doilies, which are simply wiped wire sieve. Stir two and a half pounds off. Carefully stretched towels are of sugar into this pulp and cook slow-
